Monday was County Court Day in Marion.
Perhaps the biggest County Court Day crowd ever in Marion was here that day.

No crowd in Marion ever seemed to be jollier.
The merchants of Marion all report good business for the day. The people of the county took advantage of the three per cent off for cash, many of them too found out that not as good goods could be bought in Marion for less money than could be bought from any mail order house.

The band concert put on through the influence of the business men of Marion was no small feature of the day.

A big crowd, good business, everybody happy—That's County Court Day! And evidence that it pays to advertise in the Press!

CAN RID SHEEP OF INSECTS

Irritation Causes Animals to Pull Their Wool and Thus Injure Fleece—Use Any Dip.

Dipping is the only practical way to rid sheep of ticks and lice, says experienced sheep men, who further point out that lice cause sheep to pull their wool and thus injure the fleece.

Had no ticks are, lice are said to be even more dreaded. Sometimes it is even difficult to find them. If a sheep has pulled its wool badly, however, and the farmer looks closely at the skin over the spots where the wool is most disturbed he will likely find small black specks which at first he may take for timely seeds or chaff. As he watches them closely, however, he will see that they move.

After the sheep has been shorn it should be dipped. The lambs also, as

A Flock of Purebred Sheep.

soon as they are of any size may be given the same treatment. In order that the sheep may go into winter quarters in good condition and free from ticks it is well to dip again in the fall.

Any of the well-known dips are satisfactory, say the sheep men at the New York state college of agriculture, but whatever one is selected it is important to follow directions closely, they point out. Dips are of two kinds, the powder dips and the so-called coal-tar dips.

TUBERCULOSIS CASES FOUND

Cattle on Indiana Farm Discovered With Disease in Advanced Stage—All Purebreds.

Following the tuberculin testing of 37 cattle on an Indiana farm, it was found that several of the animals which reacted to the test, after slaughtered in an establishment under federal supervision, showed lesions of the disease not only on the organs, but even in some of the meat. In reporting the incident to the United States Department of Agriculture, Inspector R. H. Newman explained that the demonstration was of unusual interest because all the cattle were pure bred.

One of the cows, which had supplied milk for local use showed extensive lesions of tuberculosis in the mammary glands, a condition associated with probable infection of the milk. Several other calves, who saw the tuberculous carcasses, have signified their desire to have their herds quarantined for a place on the antituberculin list. Herds on this list are officially recognized as free from tuberculosis.

EQUIPMENT TO BREED SWINE

Up-to-Date Devices Save Time and Labor and Add Much Pleasure to Management of Hogs.

It is not true that one needs the most expensive equipment to breed swine successfully, but an up-to-date equipment saves labor and adds much to the pleasure of business. Where possible all buildings should be so constructed that they can be easily cleaned and disinfected. Concrete makes possibly the best floors and feeding pens.

START FLOCK OF SHEEP NOW

Best Time to Begin With Animals Is When Prices for Breeding Ewes Is at Low Mark.

The best time for the farmer to begin raising sheep is when the price is low, as it is at the present time. In addition to the numerous types at which breeding ewes can be secured, the fact that there is plenty of hay and other roughage and short grain and much waste in the stable due to rust, makes this a fine year for the farmer to get started with a small farm flock.

HEAVY BEDDING IS FAVORED

Tends to Cleanliness and Comfort of Animals and Saves Much of Fertilizing Elements.

There are several good reasons for bedding stock heavily in the winter. The comfort of the animals and the cleanliness, the saving of valuable fertilizing elements, and protection of the feet from the troubles resulting from either wet manure under the hoofs or the hard concrete floors where this material is used.

H. E. Parker, Merchandising Expert, mowing down this stock at prices that would bankrupt any ordinary merchant. A seething mass of merchandise cut loose as if struck by a thunderbolt. A burst of under-pricing. An open slaughter of prices. An emptying out all over the store. Old High Price swept by a tidal wave---Parker's prices---Carnahan's stock---Your chance---The greatest buy of 1921.

**"I Can"
"I Will"**

Give you the greatest Barains of your life
No dissappointments in my store

Parker says:

"Nothing can stop me, folks"

I'm here to sell—and sell I will. All I can see is a wonderful lot of merchandise and it must be sold. I am going to sell you new up-to-date merchandise at prices far below wholesale cost today.

Folks, goods are surely on the upward way again, replacement orders all call for a higher price than 90 days ago. You who have waited for a sale like this, let me say, come prepared to buy the bargains of your life. Selling is my business, been at it for over fifteen years and I've never missed my chance for any sale that was not on the square.

I'm taking this entire stock—putting it right on counters—bargain it on racks—stacking it in bins and marking it in plain figures, no time for the bargain of your life, and you'll surely not be disappointed on a single thing. I have full authority to set the limit to secure all your best profit. But SELL, SELL, is the order. It would take many pages to list the hundreds of bargains, too many to list. But come to the Master Sale Room and see how far you can stretch your dollar.

A Beverage Disdained.
"I think I shall set up a soda fountain in 'Crimson' thick," remarked the stranger.

"Don't do it," rejoined Cactus Joe with great earnestness. "The boys that used to ride in and shoot up a regular bar were only playful. What they would do to a soda water fountain would be just vindictive."

Still There.
"Hello old man," said Bobby Sponger lately.
"Yes, Bobby's down at my shore place. I invited him down for a week ago."

"Why I thought that was two weeks ago."

"It was, but you know Bobby is an expert at making both ends meet."

Mrs. Mind Clearing.
Doctor—Has your husband come out of his semi-consciousness yet this day?

"Yes, I believe he had a little moment a little while ago."

Doctor—What did he do or say?
"He refused absolutely to take the medicine, and remarked that you were an ass."

Barring the Bard.
"Why don't you put on a good Shakespearean play?"

"Because," replied Mr. Stirlington Barnes, "people who don't appreciate Shakespeare wouldn't go to see it, and people who do appreciate Shakespeare for some reason fail to care very much for my acting."

SELLING FOR \$65 TOO.
I understand that there is only about \$627 worth of wool in the new "all wool" spring suits.
Horrors! I'd not be seen in such an indecent outfit.

Test of Philosophy.
"I care not for the flesh of Tota," said one whose name was Tota. But when he saw a female Tota, He was a sad and thoughtful man.

Symphony of Street Sounds.
"How can I compare in this market?" snarled the constable. "The sweetest in jangling constantly, people are putting in loud, unmelodious tones, and here comes a fish man with his horn."

"Work out all this a little composition," suggested his wife.

An Experience.
"Don't you believe a soft answer turns away wrath?"

"What makes you doubt it?"
"My wife asked me what I thought of her blouses and she got blushing and when I told her they tasted like mush."

Experience.
"How is this water game of golf these days?"
"He's improving."

"Makes a better score?"
"No, but he has an easier flow of language when he loses a ball."

She Wasn't a Fan.
She—I'm so interested in football. I have a cousin you know, who was on the college team last year.
He—Indeed? What did he play?
She—Well, I forget her whether he was a quarterback or a punt.

Success.
"Edison's Patent" I put your graft and to see how hard you have taken on when I'm taking my rest."

"Yes, I hired you to take care of the system,"—Judge.

Freedom.
"Is that what you call free verse?"
"It is," replied Mr. Penwidge. "It gives me a glimpse of enlightenment. I begin to understand what the old poet meant when he wrote 'Freedom shrieked!'"

Determining of Pitches

It's bad luck to dream of ditches. If they are deep, it foretells all kinds of misfortune, lessened in degree only by growing shallowness. Thereon will rob your house. When your children grow up they will be undutiful. If you are in love, you'll have a quarrel with your sweetheart. If you are in business, you will suffer heavy loss.—Clemens, Harold and Klauminer.

Pelly Cont.

This was the former spelling of pellissat which meant the little or short coat worn in other days by men. Henry V had a "pettis coat" of red damask with open sleeves. A teward the fashion, with short sleeves, was limited by women, who copied the gown robe, frock and blouse which were all worn in the first place by men.
